# SEMI-MONTHLY BULLETIN OF NURSERY STOCK OFFERED BY

## The **POMONA WHOLESALE** **NURSERIES**

W. D. GRIFFING,  
Proprietor.

MACCLENNY, FLA.  
Baker County.

Corrected to February 1st, 1896.

### NOTICE TO CUSTOMERS.

Everything offered in this List is grown on our own grounds. Trees have all been carefully dug, graded and healed-in in our packing grounds, which are well supplied with water and every convenience for handling and keeping trees in perfect condition. We are conveniently located to both depot and express office, and orders can be packed and shipped promptly. Especial attention is given to **Orders by Telegraph**. The stock is graded and packed after the latest and most approved methods, and will be found to be just as represented.

### TERMS AND CONDITIONS.

**TO THE TRADE:**—In offering this List I wish to thank my many patrons for the kind favors shown in the past, and would further say, that with increased shipping and handling facilities, a large and more complete stock, and competent help, I hope to do even better by you than I have in the past.

**FIRST**—Packing is done in the most thorough manner, in good boxes and bales, for which I charge enough to cover cost.

**SECOND**—Free delivery at railroad depot here at Macclenny. Every precaution possible is taken in Packing and Forwarding, but I will in no case be responsible for delay or damage to stock in transit.

**THIRD**—Where cash accompanies order I will box or bale goods mentioned in this List free of charge. This is an important item, as it means to you a good discount. Orders from Unknown parties must be accompanied by one-fourth cash balance before shipment.

**FOURTH**—While I use every Precaution to have stock true to name, in no case will I be responsible should a mistake occur for more than actual price paid for stock.

**FIFTH**—These prices abrogate all previous list quotations.

**SIXTH**—Unless especially instructed to the contrary, we substitute where the supply of the variety ordered is exhausted. If you do not want us to substitute, state so plainly in your order.

**REFERENCES**—The National Bank of the State of Florida, Jacksonville, Fla.

**THIS BULLETIN** will be issued Semi-Monthly during the balance of our shipping season.

**NOTICE:**—In a few instances this list shows a greater number of some varieties and grades than was listed in previous issues of this Bulletin. This is caused by our learning that some parties that had ordered trees previous to January 7th, had not a sufficient financial rating to warrant a credit business with them. In which cases we have again listed the stock, and canceled the orders.

W. D. GRIFFING, Proprietor.

BAKER COUNTY PRESS PRINT.

Yum Yum.....		109	1314	1400	275

Notice that I offer a very complete list of varieties comprising the best and more popular sorts for both northern and extreme southern planting. And would especially call attention to the following new and popular varieties such as the Crosby, Champion and Lorentz for northern planting, and the Waldo and Oviedo for southern planting, and also the general list of choice sorts such as the Alexander Elberta, Early Crawford, &c. The trees are all fully up to grade and will be sure to give entire satisfaction.

## PEACH YELLOWS AND PEACH ROSETTE.

There cannot be too much said on this important matter, which interests both planter and dealer. In sections where it has not already been introduced, great care should be taken to prevent its being brought to such localities by trees being shipped in from infected districts, which has been done to a large extent. It has been the practice of nurserymen for many years to secure their peach seed from the mountains of Georgia and Tennessee, where the yellows had never been reported; but now this promises to be a dangerous course to pursue, on account of the discovery of the disease known as "peach rosette," which is sometimes called southern peach yellows it being as disastrous as the yellows, if not more so.

Our Nurseries are more than 200 miles from any known case of either disease, and the seeds we use are from seedling trees in our own section.

## Nurserymen's Telegraphic Code Used.

Words in Boldface Type at head of each column are the telegraphic ciphers for grade only

**PLUMS.**

	<b>Object.</b>	<b>Oblige.</b>	<b>Oblong.</b>	<b>Octave.</b>	<b>Office.</b>	<b>Odds.</b>	<b>Oppose.</b>

Wild Goose .....	3	2	...	35	125	55	...
Yellow Japan.....	192	115	39	700	...	...	220

The Plums in above list are the finest lot that we have ever grown, and, in fact, the finest I ever saw. All that are graded by caliper are nicely branched, having been topped at about three feet high and have formed a nice shapely head. The bodies are smooth, straight and bright, and the appearance of the trees speaks for their health and vigor. Those graded by height only, have few branches with some trees that will only be straight whips, but every one of them are perfectly healthy and in every respect a first class tree.

The Marrianna stock is used exclusively for propagating plums, and all the trees offered above are one year old from Dormant buds, with the exception of the smaller ones, that are graded by height, which are June buds on two year old roots.

**PEARS--1 Year.**

One Year Old, with Heavier Grade somewhat Branched.

	<b>Hammer.</b>	<b>Haven.</b>	<b>Hamper.</b>	<b>Happy.</b>
Partly Branched.	5 to 7 ft.	4 to 6 ft.	3 to 4 ft.	2 to 3 ft.
	Branc'd.	Str't.	Str't.	Str't.
Per 1,000 Trees....	\$60.00	\$45.00	\$35.00	\$25.00
" 100 " .....	7.00	6.00	4.50	3.00
" 10 " .....	1.25	.90	.70	.50
" single " .....	.15	.12	.10	.08
Buffum .....	27	50	63	3
Garber .....	124	150	...	...
Fitzwater .....	...	25	50	30
Keiffer .....	760	3658	4894	2945
Lawson .....	48	9	20	20
LeConte.....	377	349	2000	2253

These are fine One Year Trees on Japan Stocks, with the exception of the LeConte, which is on its own roots. The Keiffer are especially fine.

**PEARS--2 Years.**

	<b>Harrow.</b>	<b>Hasten.</b>
Heavily Branched.	$\frac{3}{4}$ inch and up.	$\frac{5}{8}$ to $\frac{3}{4}$ inch.
	5 to 7 ft.	4 to 6 ft.
Per 100 trees.....	\$25.00	\$16.00
" 10 " .....	2.50	2.00
" single tree .....	.30	.25
Keiffer .....	447	381
LeConte.....	340	42

This is a handsome lot of pear trees, being uniformly branched at about three feet from the ground, forming a nice, shapely head. They have made a vigorous growth during the past season, and where choice stock is wanted, they will be sure to please. Write for special prices on these and any other stock listed that you can use.

**PECANS-**

	<b>Walk.</b>	<b>Warp.</b>	<b>Worn.</b>	<b>Work.</b>
From Soft-Shell Selected Nuts.	3 to 4 feet.	2 to 3 feet.	1 to 2 feet.	6 in. to 1 foot.

MACCLENNY, FLA. Feb. 1st, 1896.

Dear Friend:

I herewith enclose to you our Wholesale graded count list of stock on hand, together with a few of the many unsolicited Testimonials, mostly from well-known Nurserymen to whom we have furnished large quantities of stock during the past six years. You will bear in mind that Nurserymen always know what good stock is and that commendations from them mean a great deal.

We have concluded to send this one issue of our Wholesale list to the planters and give you the benefit of the wholesale prices herein listed in order to close out the stock now on hand at once, so that we may give our whole attention to planting for next season.

You will see that we yet have a good list of varieties of just the class of fruit you need in your section, and it will not be necessary to call your attention to the low prices as they show for themselves. This is our regular semi-monthly Bulletin which we send to the Nursery trade all over the United States.

Your name has been handed to us as a planter and for reasons above expressed we solicit your order. Remember that this is the only issue of our Wholesale Bulletin that we will send to planters and that the prices herein quoted will not be good unless order is sent in at once.

While our list of varieties is at present good the quantity is somewhat limited, and unless order is in at an early date there will be a chance of our not being able to fill it in every detail as you want it.

This is a rare chance to get your stock for an orchard at the lowest wholesale prices, and we are confident of closing out the surplus stock listed with this issue.

To be sure of getting what you want let us hear from you with your order by return mail. Should you be in need of anything not listed in this surplus list, write for Catalogue as we will most likely have it in our general stock. Everything shipped from these Nurseries is guaranteed to be strictly first-class.

Yours truly,

POMONA WHOLESALE NURSERIES.  
 W. D. Griffing.
